

SHING MUN RESERVOIR HIKE 城門水塘远足径

To explore the flora and fauna of Hong Kong, the Shing Mun Reservoir Hike in Tsuen Wan is a walking trail not-to-be-missed. Completed in 1937, Shing Mun Reservoir is a great source of fresh water and home to many species of butterflies, migratory birds and monkeys. The village of Tai Wai in front of the reservoir is now gone, but its protective feng shui woods remain, which boast more than 70 species of trees.

想探索香港的自然生态，城門水塘的远足路线让您可发掘香港大自然的一面。于1937年竣工的湾城門水塘，齐集多个品种的蝴蝶、候鸟及猕猴，是动植物的天堂。城門水塘原址是大围村，里面的风水林种植多达七十多种树木，现已被划为“特别地区”加以保护。
